# Willis Leads Donaldson In Gubernatorial Race

## McDonald And Moser Are Elected

Republican Simeon S. Willis was in the lead in the Governor's race, according to news at press time. Although J. Lyster Donaldson was trailing Willis, the remainder of the Democratic nominees for state-wide offices held advantage over the Republican opponents. Donaldson in the First District gave 11,882 majority.

Roy McDonald, Democratic nominee for senator, and W. B. Moser, Democratic nominee for representative, were elected.

The incomplete reports showed Kentuckians voted against two proposed constitutional amendments by big margins. One was a plan to make Workmen's Compensation Insurance compulsory instead of optional. The other would have removed the constitutional ban on payment of more than \$5,000 annually to any state, county or city official or employee except the governor.

**Six Councilmen Elected; No Opposition.**  
Frank Albert Stubblefield, C. T. Rushing, Vernon Hale, Robert "Duck" Jones, P. B. Gholson, and J. B. Farris were elected to the city council without opposition.

## ORVILLE J. KUHN DECLARED DEAD BY U. S. NAVY

### Is The Son Of Mr. And Mrs. Peter Kuhn of Murray

Mr. and Mrs. Peter Kuhn have received further news from the Navy Department concerning the loss of their son, Orville Joseph Kuhn, Seaman First Class, United States Navy.

A year ago, October 16, the Kuhns received a telegram stating that their son was missing in action. Nothing more was heard until Sunday, October 24, when a letter came from the Navy Department stating that the ship their son was on was torpedoed without warning and sank in seven minutes. The news stated that two life boats got away and were picked up the same day by another merchant ship, but their son was not among the rescued men.

They received another letter October 26 stating that: "After a full review of all available information it was the conclusion of the Navy that Orville Joseph Kuhn is presumed to have occurred October 10, 1943, which is the day following the day of expiration of an absence of 12 months."

Young Seaman Kuhn was 17 when he joined the Navy September 18, 1941. He attended Almo High school.

Peter Kuhn, father of Orville, served two years in the other war in 132nd Infantry, 33rd Division from Illinois and served one year overseas. He is a native of Luxembourg, now in the hands of Germany, and he knows from first hand some of the experiences that his son experienced and the trials other American men are enduring.

Mr. Kuhn is a city letter carrier here having lived in Murray since 1930. Mr. and Mrs. Kuhn have two daughters that are giving valuable service to their country. Miss Alice is in her third year of training in the nursing school, Speers Memorial Hospital, Dayton, and is a member of the Cadet Nurses Corps. Miss Norma is a Naval Instructor, Triumph Explosives, Elton, Md. Their third daughter, Miss Carrie Marie, is a senior in Murray High school.

## Dr. J. H. Richmond Speaks to Paducah JCC's Monday

Dr. James H. Richmond, president of Murray State College, spoke before the Junior Chamber of Commerce at Paducah, Monday night on "Kentucky's Educational Problems."

Dr. Richmond is president of the Kentucky Educational Association and has done special work for the government in the interest of education.

Dr. Richmond expressed his disgust with society for not giving the proper machinery to work with education and expecting teachers to work for less money than other professions.

He advocated three ways to improve education in Kentucky and get the machine in operation. They were:

1. Increase of per capita allotment to a level with other states.  
2. Fair assessment of local property.  
3. Federal aid to schools.

"There is no democracy in educational support in Kentucky," he said. "Cities of some classes can levy a \$1.50 tax while rural sections are restricted to 75 cents. Yet these rural systems have to transport students and cities don't."

Dr. Richmond said the one-room school has been glorified but was never too satisfactory. He advocated consolidated schools which can be furnished by a change in the tax levy system.

He urged support of federal aid for schools. "State lines have been dimming rapidly since Appomattox and will continue to do so. Some sections garner all the wealth but it is created by the entire nation. Just because wealth is concentrated in certain localities that is no sign all the nation should share the school benefits. I will fight for federal aid but I will bitterly oppose any sort of federal control," he said.

**CALLOWAY COUNTY LIBRARY BOARD ELECTIONS OFFICERS.**

Austin, Mrs. Leslie Ellis, Mrs. Thomas Tarty, Burton Jeffrey, Rev. Blankenship. Officers elected were Mr. Jeffrey, president; Rev. Blankenship, vice-president, and Mrs. Leslie Ellis, secretary. Regular meetings of the board will not be held, but meetings will be called when there is sufficient business.

## Flag Flies In Court Yard

The newly erected flag pole in the court yard is creating a bit of appreciative comment from people who have seen it. This is a project of the local Lions Club who directed the purchase of the pole and supervised the collecting of the contributions of local business men. Hershel Corn, chairman of the War Service Committee of the Lions Club, is given credit for the work.

According to the Rev. C. C. Thompson, president of the club, Senator Alben W. Barkley will give a flag that was used over the capital building in Washington, one week, to be used here. He stated that these flags were barely soiled and were extremely large and beautiful.

Murray has needed this flag and it is a fitting picture to make a background for the Honor Roll of Calloway County Service Men.

## David E. St. John Killed In England

Word that David E. St. John was killed in England was received by his parents, Mr. and Mrs. Cuthbert St. John Monday morning. The message stated he was killed in an accident but didn't describe the tragedy.

Young St. John has been in the army over two years and served overseas a year. He was about 25 years old.

His uncle, Ewing Hart, was killed in action overseas in the other war, and 25 years ago last Thursday Mr. and Mrs. R. L. Hart, grandparents of the St. John soldier and the parents of Ewing Hart, received a message stating their son was dead.

Both the St. John family and the R. L. Harts reside in the New Providence community where they have lived and contributed to the county's good.

Other survivors are a brother, Bonnie St. John, Hazel, sisters, Miss Treva St. John, a nurse in Memphis, and Lena, Paris, Tenn. Mrs. Mattie St. John, who resides with her daughter, Mrs. Frank Gibson, and Mrs. Gibson, Hazel, is his grandmother.

## Calloway School Girl Contributes To War Effort

One young lady of the Kirksey community is getting her education and contributing to the war effort in daily milk delivery. She is Miss Billie Gingles, daughter of Mr. and Mrs. Hugh Gingles, and a junior in the Murray Training School.

Each morning, in a pair of overalls, she milks approximately a dozen fine Jersey cows, strains the milk into cans and gets it ready for delivery.

After breakfast she delivers the truck of milk to the Murray Milk Products Company here and returns to school.

After school, she again does the milking and does the general work around the place. All this is done by Miss Billie in order that her Dad, Mother and brother, Ralph, may spend more time on other farm and home work that is vital to war production.

Billie is a good cook, too. She makes good grades in school, and seems to be having a wonderful time in the community activities. Her brother, Rob, is in an army camp in Texas.

### TEACHERS' OVERTIME

Personal thanks are due teachers of the public schools. They have given special hours to work demanded of them voluntarily. All the registration for ration cards goes through their hands. Everyone is asked to volunteer work that tedious jobs may be accomplished, but teachers have seen this special job through each time a new book that requires registration has been issued.

They have a big job on their hands all the time that of leading the youth in the direction acceptable to society. To do this is no easy accomplishment—but they are trying and to those who have chosen to teach our children as their War Job, we say yours is a noble and patriotic work.

### MURRAY MILK PRODUCTS

There are many things that could be said about one of the county's industries that is leading in the financial contribution and directly connected with the productivity to the War Effort. It has been generally known that Calloway County's Jersey cows and milk herds have made a noticeable record and through the efforts of the Murray Milk Products Company has made rapid advancement. Milk and its products are vital war supplies and the manufacturing of such is listed among the essentials of War Industry.

Calloway has been greatly blessed by having such leaders as are at the head of Murray Milk Products, enabling this industry to grow and promote better dairy herds for this section of the state.

**There are A DOZEN DEKALB HYBRID Corn Varieties for this Section Growing in My PROVING GROUND**

**SEE THEM FOR YOURSELF**

With hybrid corn, the important thing is NOT where the seed was grown, but how it performs where you plant it. The best way to compare varieties and decide which ones suit you the best is to see them growing side by side in a soil and climate similar to yours. That's why DeKalb has more than 3300 proving grounds or demonstration fields, throughout the corn-growing areas.

## FALSE TEETH

Many wearers of false teeth have suffered real embarrassment because their plates dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

## New Supply Of Children's Shoes

WASHINGTON, Nov. 2.—To relieve a shortage of shoes for small children, a new supply of non-leather types will be made available, ration-free about the first of the year.

The Office of Price Administration, OPA, also announced today the removal of rationing of limited stocks of obsolete shoes, selling at \$1 a pair or less.

The increased supply of non-leather children's shoes will generally benefit youngsters up to about 8 years of age, wearing "misses" or youths' size three or smaller. Larger sizes will be rationed.

The shoes will have canvas uppers, but will not be ordinary gym or tennis types, OPA said. The soles will be principally of heavy woven fabric, reinforced with vulcanized rubber.

The obsolete shoes removed from rationing are types which, though wearable, have deteriorated, including out-of-style, discolored or worn-out shoes that have been lying idle on dealers' shelves.

Dealers may put the shoes on sale as soon as they obtain permission from their OPA district office and attach official non-rationed stickers to the merchandise.

It was reported Wednesday that Harley Hale had an automobile accident near Almo. The extent of the damage was not given.

## T. B. HOSPITALS NEEDED IN WEST, EAST KENTUCKY

Doctors Call Attention To 13,000 Cases

C. C. Howard, M. D., Glasgow, chairman of the committee from the House of Delegates, Kentucky Medical Society, that met October 4th, 1943, made the following report that is of vital interest to Kentuckians — every county in Kentucky:

October 4, 1943. Mr. Chairman:

The committee has decided to present one pressing problem for action of the House of Delegates at this session — namely, the treatment of Kentucky's tubercular people, plus the education of the layman in its prevention. These 13,000 known active cases of tuberculosis, if allowed to go untreated, will infect 78,000 of our boys and girls.

"2,000 deaths from tuberculosis each year in Kentucky, with 1,300 new cases developing each year, is our present record. This is a casualty list of 3,300 of our people each year — greater than the Kentucky casualty list from the war zone. This goes on from year to year. We must meet this enemy on his own grounds and defeat him. It will take a modern medical army with all its equipment to do this.

Kentucky is a large state with 3,000,000 people scattered over its hills and valleys. It is 500 miles from Ashland to Hickman, 250 miles from Harlan to Louisville, 250 miles from Louisville to Paducah. So you can well see that no one in

stitution situated at any one place can adequately and economically care for these victims. Therefore, we recommend at least two additional adequate modern institutions, well equipped and staffed with the best in every respect — one for Western Kentucky and one for Eastern Kentucky — plus Hazelwood with its addition, which is now in progress. These three institutions to be built and operated at the expense of the State of Kentucky, under the planning and supervision of the State Commissioner of Health, assisted by three doctors. "Hospital for Eastern, one from Central and one from Western Kentucky — the selection of these doctors by the House of Delegates of the State Medical Society.

We also recommend that the present Medical Economic Committee with the Commissioner of Health be requested to appear before the Legislative Council this fall and any other committees of the Legislature that they may see fit to set in motion plans to carry out this program.

These institutions are to have as many free beds as needed for their district. The planning board shall decide on who is free after a thorough investigation of the financial status of every patient.

Committee: W. B. Moore, E. B. Bradley, C. L. Simpson, Guy Guy, Carl Noftleit, Clark Bailey, Burr Atkinson, C. C. Howard, Chairman.

Approved by House of Delegates, State Medical Society, October 4, 1943.

A letter from Dr. Hugh L. Houston, Murray physician and member of the staff of the Keys-Houston Clinic, that was published in last week's Courier-Journal under the title, "Regional Hospitals With Hazelwood's Scientific Facilities Best Arrangement for the Tubercular," follows:

It is with pleasure that a rural physician reads an editorial with such profound understanding of the state's problem as that represented in "Hazelwood's Inadequacy Plan to Doctors."

It is plain to the doctors in rural Kentucky that our tuberculosis problem is not being correctly handled. The men at the head of the program are locating every facility in or near Louisville. The Governor of Kentucky in his willingness to help the problem has allowed money to be appropriated to double the size of Hazelwood's present facilities. This is truly wonderful and we trust will help many patients. We doctors and patients in rural Kentucky find it difficult to utilize these facilities. As pointed out by Dr. C. C. Howard of Glasgow, it would be far better for Kentucky if we had three or four small tuberculosis hospitals scattered throughout the state.

It is true that we need highly trained specialists in chest diseases. These specialists may center their work at Hazelwood; but we also need hospitals for routine cases of tuberculosis throughout the state. We could, of course, utilize the knowledge of these trained specialists by hospital rounds of the state or by writing or referring difficult cases to them at Hazelwood. It certainly seems feasible that we should establish out in the state of Kentucky at least two hospitals for the treatment of this dreaded disease. With two such 100-bed hospitals and Hazelwood's new facilities for 300 beds, we should be able to attack the problem of tuberculosis with correct facilities to stamp out this malady in a few generations.

Western Kentucky would, I am sure, furnish a farm for the establishment of a T. B. hospital or colony on the banks of the New Kentucky Lake if the state would assume management and erection of such an institution. Our tuberculosis patients could then stay near home, receive the correct treatment for their disease and enjoy the pleasure offered by the lakeside hospital.

Hugh L. Houston, M. D.

BACK THE ATTACK! Buy War Bonds regularly with every dollar you can do without—buy until it hurts!

They're talking about when they say that Victory depends upon an unceasing flow of supplies. And at home, those directing the war effort rely on the telephone to keep munitions and men moving forward.

These urgent calls pass through the same local telephone equipment you use. Yet facilities can't be expanded to meet demands fully, because the necessary materials are being made into planes, tanks and guns.

By avoiding unnecessary local calls—and by speaking briefly whenever you talk—you help relieve crowded lines and switchboards for war duty. In that way you help speed vital war calls.
